

INFINIBAND SWITCH OPERATING IN A CLOS NETWORK

Abstract of the Disclosure

- 5 An InfiniBand switch (401) includes a forwarding table (415), a plurality of DLIDs (410) and a set of forwarding instructions (415) in the forwarding table, where each of the plurality of DLIDs corresponds to one of a plurality of routing trees (330, 332, 334, 336) and one of a plurality of end nodes (114) in a network (100, 200, 300, 400).
